"Do what you love, love whay you do"

Personal Profile

I am a student majoring in computer science and technology, and I will devote myself to the research and application of artificial intelligence. Looking for a career related to artificial intelligence, such as computer vision, natural language processing, recommendation systems, etc.

Education

Hebei University of Technology   *Tianjin, China*
B.S. in Computer Science and Technology   *August 2019 - Present*
- The only two in the school to transfer to computer science and technology
- Turn down a postgraduate recommendation

Skills

Programming   Python (Pytorch TensorFlow, Scikit-Learn), C/C++, C#, Java, MATLAB, HTML, SQL
Miscellaneous   Linux, Shell, Vim, Git, LaTeX, Markdown, Microsoft Office.

Achievements

2021	**First-class scholarship of Hebei University of Technology**, Grades and extracurricular activities	*Tianjin, China*
2021	**Merit student of Hebei University of Technology**, All aspects	*Tianjin, China*
2021	**National Encouragement Scholarship**, Grades	*Tianjin, China*
2020	**Software Copywrite x 7**, Software	*Tianjin, China*
2020	**Outstanding volunteer of Wu'an Town**, Epidemic prevention and control	*Hebei, China*
2020	**First-class scholarship of Hebei University of Technology**, Grades and extracurricular activities	*Tianjin, China*
2020	**Merit student of Hebei University of Technology**, All aspects	*Tianjin, China*
2020	**National Encouragement Scholarship**, Grades	*Tianjin, China*

Advantages

Artificial Intelligence Knowledge   Read course materials of world famous universities
Lower Wages   Lower salary compared with graduate students
Adaptive Learning   Learn the knowledge required by the enterprise
Sense of Teamwork   Served as the team leader in many school course groups and competitions
Self-Motivation   Passionate about artificial intelligence

Languages

Chinese   Native
English   CET6, Proficient in reading
